True HYBRID Ind-Solar UPS

Backup Problem....??

Use EAPRO TRUE Hybrid Solar UPS

High Electricity Bill....??

Use EAPRO True Hybrid Ind-Solar UPS to save ELECTRICITY

Frequent & Long Power Cuts...?

Use EAPRO True Hybrid Ind. Solar UPS

Applications

- House, Kothies, Bungalow for AC and other Loads.
- Petrol Pumps & Hospitals for AC and other Loads.
- Industries, offices, Banks.
- Gym equipments.

- For charging of battery, intelligently give the priority to Solar Power.
- If Solar is available and battery is declared as full charged, then mains will automatically cutoff till battery discharge up to the defined level which is calculated by an intelligent algorithm based upon Battery AH and Solar Available power.)
- Interactive multi colour LCD Module.
- Solar PV Reverse Connection Protection
- Inbuilt fully regulated PWM based Charge Controller
- Reverse Current Flow Protection from Battery to Solar Panel generally during night
- Closed Loop Auto Sensing Software Control (ASSC) Smart Battery Charging Technology for longer battery life.
- Intelligent Overload Sensing Circuitry with auto retries facility
- Programmed Inbuilt cooling fan which operates as needed
